PATENT

The requirement for election is traversed because the inventions set out by the claims in Groups I and II are clearly related. Applicants note that both the cited Claim Groups each fall within Class 62, and submit that a thorough search and examination of one Group would be relevant to the examination of the other Group and would not be a serious burden on the Examiner. Additionally, requirements for election are not mandatory under 35 U.S.C. §121. Accordingly, reconsideration of the election requirement is requested.

Respectfully Submitted,
